

Autumn Term 2019

‘Whatever Next’

By Jill Murphy

Our Autumn term topic is based around the story book ‘Whatever Next’. We will use the story to teach your children about the great wonders of space using a variety of stimulating & educational activities which support our learning themes.

- Theme 1 – Baby Bear & his family
- Theme 2 – Walking on the moon
- Theme 3 – Twinkle twinkle little star

In order to support your child’s learning, please read the story together at home. Please remember to send us your activity ideas to contribute towards our planning.

Extending the topic at home

Theme 1

- Creating a family tree
- Have a teddy bears picnic
- Share the story together before bed

Theme 2

- Using boxes to build your own rocket to fly to the moon
- Find items to ‘float’ and ‘sink’ in the bath
- Visit the science museum together

Theme 3

- Go to a fireworks display with your family
- Make a telescope from a toilet roll tube and watch the stars before bed
- Create a painting on foil

Please remember to share your activities with us via Tapestry!
